

Name: Dylan Mumm

Technical Knowledge

Please rate yourself on a scale of 0-10 in the following areas. This information is used to get a general sense of your software development experience...so please be honest! Putting down a 0 for a technology about which you know nothing or have no experience is not an indication of poor performance.

C programming	[4]
C++ programming	[6]
Java Programming	[6]
Web site development (HTML/CSS/Javascript)	[2]
Web application development (eg PHP/Ruby on Rails/React/JQuery)	[0]
Database development (which database: _____)	[0]
Experience with Agile Project management	[2]
Other Languages (which: R, Python)	[3]

Any internships or computer related work experience?
